

Here for the long haul

With **RENTAL & LEASING** Support

At CIT, we realize that our customers' business and equipment needs vary over time and that equipment leasing and rental options provide valuable alternatives to equipment ownership. CIT Group Leasing, Inc. is affiliated with PacLease Truck Rental and Leasing, a national network of more than 280 truck leasing operations and over 50,000 independent service providers. We specialize in assisting our customers with tax advantaged leases, freeing working capital, providing complete maintenance services and professional transportation management.

CIT Group Leasing, Inc. provides many customized services tailored to meet our customers' needs:

■ **FULL-SERVICE LEASING**

A CIT/PacLease full-service lease provides a variety of services including preventative maintenance, emergency roadside service, safety and insurance programs, permitting and licensing service, fuel programs and fuel tax reporting, substitute vehicles, tire service, vehicle washing, accurate cost accounting, and more.

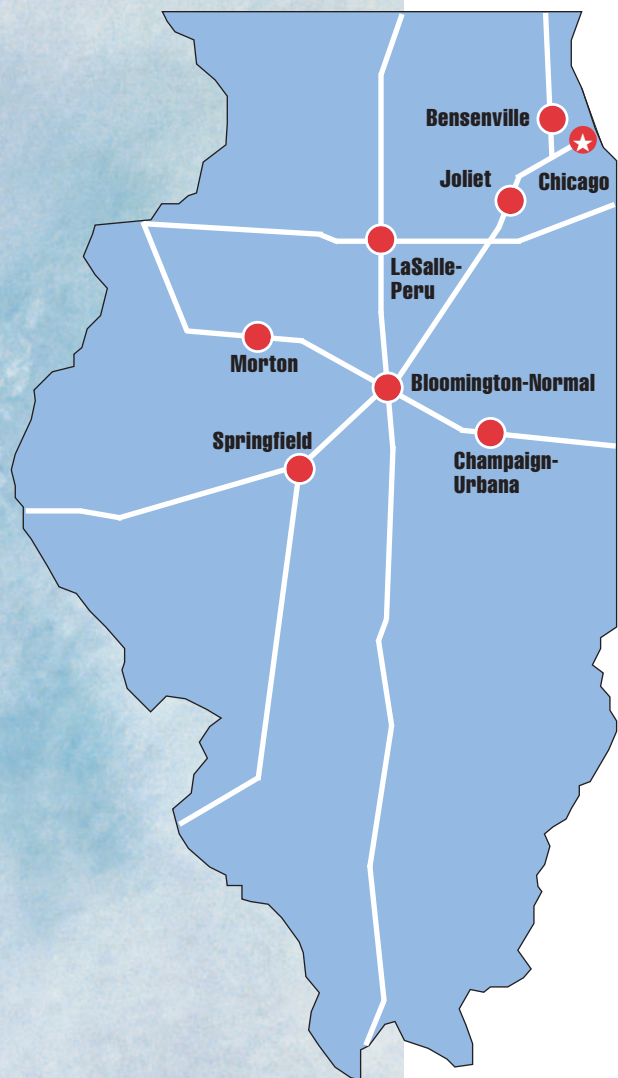

■ **FLEET CONSULTING**

With over 35 years in the retail truck dealership and leasing business, our staff has the experience to provide our customers with expert transportation consulting. Custom spec'd trucks are what set CIT/PacLease apart. Rather than pushing our customers into a standard truck spec that we have already bulk purchased, our staff works together with you to design a truck that is custom engineered for your specific business application, maximizing fuel efficiency and performance while minimizing operating costs.

■ **TAX ADVANTAGED LEASES**

We offer an array of lease programs in addition to full-service leases – Finance Leases, TRAC Leases, Modified TRAC Leases, Fair Market Value (Walk Away) Leases – specifically designed to meet your financial and tax needs.

■ **RENTAL VEHICLES**

A fleet of high quality Kenworth trucks is available for short and long-term rental to our customers to support their emergency or seasonal needs.

■ **CONTRACT MAINTENANCE**

Our contract maintenance programs ensure that your fleet is maintained by a team of professionals. You don't have to worry maintaining a shop or an inventory of parts – we do all that for you.

■ **MOBILE SERVICE**

We can save our customers time, fuel, and money by bringing our service team to them with our on-site mobile service trucks.

■ **OVER-THE-ROAD MAINTENANCE**

CIT partners with Kenworth and PacLease's PacCentral emergency roadside assistance – available 24 hours a day, 7 days a week at more than 50,000 locations – to minimize downtime. PacCentral has one of the best emergency repair records in the industry.

■ **CIT GROUP, INC. SUPPORT NETWORK**

Our CIT Group Leasing division is supported by our nine CIT dealership locations throughout Illinois, in addition to the PacLease national network. Our dealership locations are staffed with over 140 factory-certified technicians and combined parts inventories totaling in excess of six million dollars in stock.
